

WE ARE HIRING

Software Engineering Manager

Shape the code, elevate the team, and deliver software that actually matters.

Work Setup: **Hybrid (3–4 days/week on-site)**

Location: **Porto, Portugal** 

ROLE AT A GLANCE

POSITION | Hands-On Technical Leadership

EXPERIENCE | 4+ Years Managing Engineers

CORE FOCUS | C# Architecture & Agile Delivery

Hands-On Leadership

Balancing team management with technical excellence.

Team Growth & Mentorship: Mentor direct reports, conduct PDPs, and handle recruitment and performance management.

Agile Facilitation: Drive Scrum ceremonies (planning, refinement, retros) and report weekly progress to department heads.

Hands-On Development: Architect new components, write C# code, and act as a technical subject matter expert.

Cross-Team Collaboration: Partner with Product Owners and Operations for seamless backlog delivery and deployments.

Quality & Platform Health: Enforce acceptance criteria, oversee QA validation, and maintain platform stability.

Proven Stack. Modern Mindset

Key technologies & ways of working:

CORE LANGUAGE
C# (4+ years required)

DATA LAYER
SQL / MS SQL Server

DELIVERY & PROCESS
Agile / Scrum

SOURCE CONTROL
